

FATHIMA FAISA THAUFEER

BSC(HONS) IN COMPUTER SCIENCE & TECHNOLOGY (READING)

ABOUT ME

As a dedicated Computer Science and Technology undergraduate with a passion for software development and a proven ability to grasp new concepts quickly, I possess strong problem-solving skills and thrive in collaborative team environments. I am eager to apply my abilities and gain hands-on experience through an intern position, with the goal of growing into a successful professional in the industry.

- Relational: MySQL, PostgreSQL
- NoSQL: MongoDB

Cloud Computing:

- AWS (EC2, S3),

Version Control & CI/CD:

- Git, GitHub

Project Management & Methodologies:

- Agile (Scrum), Waterfall, JIRA, Trello,

Other Tools & Platform:

- Docker, Postman, Figma, Canva

PROJECTS

Henna Ventures

MAY 2024 - OCT 2024

For Project 2, Henna Ventures, we used the **MERN stack, Postman, GitHub, and Blender** to merge traditional **mehendi artistry with modern tech**. The platform features a 3D hand model for virtual henna customization, a marketplace for quality henna products, customizable gift packages, appointment scheduling, and artist verification, offering a seamless user experience and empowering artists.

Lockit

Jan 2024 - Feb 2024

Our pioneering **bicycle security system**, featuring both a mobile app and a web interface, combines fingerprint authentication, GPS tracking, and LTE communication, leveraging IoT concepts using **Android Studio, Kotlin, Arduino, React, Tailwind CSS, Node.js, MongoDB, Figma**

BiteBlaze

AUG 2023 - DEC 2023

3rd Year 1st Semester Mini Project, "BiteBlaze" **food ordering system**, our group has developed this robust Food Ordering System using **React.js** for the front end and **Python** with **Django** for the back end, **postman, git, MySQL**

Todo

July 2023 - Oct 2023

This project leverages **JSP** (JavaServer Pages) and Servlet technology to create a dynamic, interactive, and user-friendly system designed to **Task Scheduler System** that helps users manage and prioritize tasks.

Elezione

July 2023 - Oct 2023

This project showcases **PHP, React.js, Tailwind CSS** proficiency, delivering a secure and user-friendly **online voting platform**. Its intuitive design ensures easy participation for voters and efficient election management for administrators.

AURORA

July 2023 - Nov 2023

As our Project 1, Developed an **e-commerce platform with a real-time chat application** and design customization for an online clothing store web application using **PHP, HTML, CSS, JavaScript, Bootstrap** and **MySQL**.

LANGUAGES

- Tamil - Native
- English - Professional proficiency

ACHIEVEMENTS

- Awarded the Dean's list outstanding best performance honor for 3 times
